

Your Mission MARS DIARY

This activity includes a **Zap code** allowing your students to access extra content through a smart phone, tablet or other device. All you need to do is download the Zappar app.

What is the Zappar app?

Zappar is an app which uses Augmented Reality technology to add virtual content on top of the world around you by way of zap codes – think of them like a suped-up QR code! Through the zap codes you can access extra content which relates to the specific activity.

No classroom access to devices?

Don't worry! All the zap code content is available to download and use offline.
marsdiary.org

HOW TO USE ZAP CODES

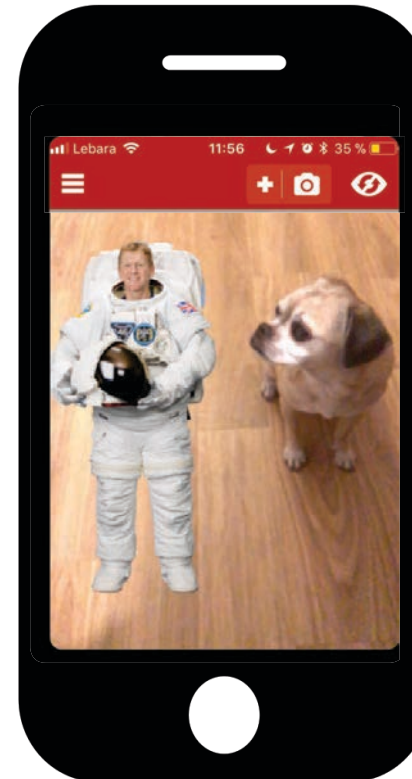

1. Ready
Download the Zappar App to your mobile or tablet

2. Aim
Open Zappar and hold your device in front of this unique zap code

4. Share your selfies with us!
Taken a great selfie with Tim Peake? Send us your photos and your class could be featured on our website! You can also post your image on Twitter or Instagram and use #MarsDiary so we can share your pics!

3. Zap!
Content will appear on your phone that relates to the activity (or in this case, Tim will appear!)
